

Use of Club Equipment

Members, who have paid an equipment levy fee have access to an array of club equipment.

We ask that parents supervise their children and encourage them to **care for boards** by:

- carrying boards without dragging (protecting fins).
- not bumping or crashing into other boards in the water.
- washing all gear after use to remove sand and salt.
- ensuring they are put away into the racks provided.

Junior club members can use club gear **outside of formal training** providing:

- they have gained permission from the Patrol Captain on duty.
- they utilise only the boards specified to their age group.
- they are supervised by their parent/s.

Club equipment cannot be borrowed by friends.
